FACILITATION OF PREVENTION AND ERADICATION OF ABUSE AND ILLICIT
TRAFFICKING IN NARCOTICS AND NARCOTIC PRECURSORS

I. GENERAL

Narcotics have a very wide negative impact both physically, psychologically, economically, socially, culturally, and so on. If the abuse of Narcotics is not anticipated properly, it will damage this nation and country. Therefore, good cooperation is needed from all components of the nation to overcome and abuse Narcotics. Narcotics are also (Transnational Crime, Organized Crime, and Serious Crime. This crime can befall all levels of society, can cause huge losses, and is able to eliminate the nation's generation (Lost Generation) in the future.

Narcotics abuse is also a transnational criminal act that is carried out using a high modus operandi, advanced technology, and supported by a wide network and has caused many victims, especially among the younger generation of the nation's successors. Narcotics also spread very quickly because they were carried out by organized syndicates with a vast network that worked neatly and very secretly both at the national and international levels.

Seeing the cases of Narcotics that are increasingly troubling the community and the state, the current big indication is the case of abuse and Illicit Trafficking in Narcotics in the region which is estimated to be quite high. The Municipality of Tangerang is an area bordering the capital city of Jakarta, and is the entrance for Narcotics syndicates. Narcotics Illicit Trafficking syndicates that come from outside the Regional area need to be sterilized. The rise of nightlife venues, as well as human

activities that require a lot of energy, spur humans to use Narcotics and Psychotropic Substances as energy-enhancing drugs. This Regional Regulation contains the Facilitation of the Prevention and Eradication of Narcotics Abuse and Illicit Trafficking in Narcotics and Narcotic Precursors.
